# SYMPHONIC

Symposium and Workshop on Neonatal Intensive Care  
Jakarta - International Neonatal Meeting

## IMPROVING NEONATAL OUTCOMES IN INDONESIA: "FROM SCIENTIFIC EVIDENCE TO PRACTICE"

December 7, 2023 Online Symposium  
December 8 - 10, 2023  
Shangri-La Hotel, Jakarta, Indonesia

Hosted by: SYMPHONIC Group  
A collaboration with:  
IDAI Jaya

with international speakers:

Arend F Bos  
Netherlands

Peter H Dijk  
Netherlands

Ju-Lee Oei  
Australia

Liem Kian Djien  
Netherlands

Ola D Saugstad  
Norway

Cheah F Choe  
Malaysia

Satoshi Kusuda  
Japan

### Info and Registration:

Sekretariat IDAI Cabang DKI Jakarta  
Jl. Salemba 1 No. 5, Jakarta Pusat 10430  
Email: sitidaijaya@idai.or.id

# SYMPHONIC

Symposium and Workshop on Neonatal Intensive Care

Jakarta – International Neonatal Meeting

## Registration and Event Programme :

"FROM SCIENTIFIC EVIDENCE TO PRACTICE"

TIME	RUNDOWN			
Thursday, 7 December 2023				
08.30 - 16.30	Online Symposium			
Friday, 8 December 2023 Shangri-La Hotel Jakarta				
07.30 - 11.40	Symposium			
13.00 - 17.30	Parallel Workshop			
	Workshop 1	Workshop 2	Workshop 3*	Workshop 4*
Saturday, 9 December 2023 Shangri-La Hotel Jakarta				
08.00 - 10.20	Symposium			
11.00 - 16.30	Parallel Workshop			
	Workshop 5	Workshop 6	Workshop 7*	Workshop 8*
Sunday, 10 December 2023 Shangri-La Hotel Jakarta				
08.00 - 14.00	Parallel Workshop			
	Workshop 9		Workshop 10	

*\*Upgrade Workshop*

Category	Early Bird	Normal	Onsite
	Before August 31, 2023	August 31 - December 6, 2023	
Pediatrician	5.000.000	5.500.000	7.000.000
GP/Resident	3.000.000	3.500.000	4.000.000

*\*All price includes 1 parallel workshop /day  
(WS 1,2,5,6,9,10)*

Upgrade Workshop	1.500.000/WS <i>(WS 3,4,7,8) Limited seat</i>
Hotel Reservation	2.200.000 /night

Bank Transfer: BNI Cabang UI Salemba  
Acc No: 0006698939 (Acc Name: IDAI)

## Day 1 Online Symposium, Thursday, Dec 7th, 2023.

08.30 - 09.00	<b>Re - registration</b> <b>Open Online Meeting by Chairman SYMPHONIC 2023</b>
09.00 - 10.00	<b>Session 1. Resuscitation and Stabilization</b> <b>Chair: TB Firmansyah / Adhi Teguh</b> 1. Hyperoxia and Consequences on The Lung – Brain Axis <b>Ju Lee Oei, Sydney, Australia</b> 2. Neonatal Resuscitation: The gap and Challenging between Evidence Based Research and Practices in Lower and Middle Income Countries : how to overcome <b>Ola Saugstad, Professor Emeritus of Pediatrics at the University of Oslo, Norway</b> 3. Respiratory Management During Resuscitation and Stabilization Period in Extreme and Small Preterm Infants: Is There Any Different <b>Peter H. Dijk, UMCG, The Netherlands</b>
10.00- 10.15	<b>Discussions</b>
10.30 - 11.50	<b>Session 2. Clinical Research: Innovations to Improve Outcomes</b> <b>Chair: Ari Yunanto / Ema Alaysiri</b> 1. Non Invasive Surfactant Replacement: Report from a Four Years Prospective Study “Indonesia innovative-LISA (i-LISA)” - Harapan Kita Hospital <b>S. Lusyati, Lucia Nauli</b> 2. Nebulization Surfactant Replacement Study: a preliminary result <b>Lucia Nauli, Engkie A. Djauharie, S. Lusyati</b> 3. Thirty Year Experience of Oral Caffeine Solution Application in Women and Children Harapan Kita Hospital: an innovation in a limitation <b>S. Lusyati, Yuko Ade, Yusi</b> 4. Double blind RCT Oral Paracetamol Multi Centre Study in Preterm Infants with hs-PDA: what we found <b>Vinny Yoanna, S. Lusyati, Kartika Darma, Syarif Rohimi, Mahrus, Bart van Overmeire</b>
11.50 - 12.00	<b>Discussions + Coffee Break</b>
12.00 - 13.00	<b>Lunch and Pray</b>
13.00 - 14.20	<b>Session 3. Work Collaboratives in NICU</b> <b>Chair: Gatot Irawan / Putri Maharani</b> 1. Neonatal Bronchoscopy in Ventilatory Dependent patients <b>Akira Prayudijanto, Rifan Fauzie/Abdillah</b> 2. Intrauterine Serial Transfusion in Recurrent Severe Fetal Anemia due to Anti M alloimmunization in Preterm Infant: The Outcomes <b>Gatot Abdurrazak, Akira Prayudijanto, Rachmat Dediati, Adhi Pribadi, S. Lusyati</b> 3. Neonatal Bradyarrhythmia Treated with Transient Pace Maker: Experience from NICU Women and Children Harapan Kita Hospital <b>Budi Rahmat, Lucia Nauli, Toto W. Hendrarto, Engkie A. Djauharie, Suprohaita</b> 4. Intrauterine Perforation in infants with Meconium Plug Syndrome <b>Alexandra, Cathline Freya, Kozzy, Daulika Yusna, S. Lusyati</b>
14.20 - 14.30	<b>Discussions</b>
14.30 - 15.00	<b>Afternoon Break and Pray</b>
15.00 - 16.20	<b>Session 4. Challenging in Nutrition Practice</b> <b>Chair: Aris Primadi/Vinny Yoanna</b> 1. Implementation of Enteral and Parenteral Nutrition in Tiny Infants to Prevent Stunting at later life <b>Rinawati Rohsiswatmo</b> 2. Neonatal Nutrition (supported by Nestle). <b>Toto Wisnu Hendrarto</b> 3. Glucose Gel Treatment and Practice: How Far the Evidence <b>Cheah Fook Choe, Malaysia</b> 4. Experiences in Management of Necrotizing Enterocolitis in Small Preterm Infants in High Income Countries: Recent Problems and Advices <b>Arend. F. Bos, UMCG, The Netherlands</b>
16.20 - 16.30	<b>Discussions</b>

## Day 2

Friday, Dec 8th 2023.

07.30 - 08.30	<b>Registration</b> <b>Opening Speech by Chairman - SYMPHONIC 2023 Key note speech :</b> <ul style="list-style-type: none"> <li>Ministry of Health</li> <li>Chairman Indonesia Pediatric Society (IDAI Jaya)</li> </ul>
08.30 - 09.45	<b>Plenary Session: Future in Neonatology</b> <b>Chair: S. Lusyati / Rosalina Roeslani</b> 1. Indonesia Perinatal – Neonatal Audit (Indonesia Neonatal Society) <b>Rosalina Dewi Roeslani</b> 2. Neonatology in the Future between high and Lower and Middle Income Countries: is there any principles differences ? What are Challenges ? <b>Cheah Fook Choe, Malaysia</b> 3. How to build research capacity and create global partnerships involving high, middle and low-income countries <b>Satoshi Kusuda, Kyorin University, Tokyo, Japan</b> 4. Changing from an Open to Close NICU Setting: Perspective View and Challenges from Neonatologist <b>Arend F Bos, UMCG, The Netherlands</b> 5. Searching for evidence: the need to overcome clinician bias <b>Ola Saugstad, Professor Emeritus of Paediatrics at the University of Oslo, Norway</b>
10.15 - 10.30	<b>Coffee Break</b>
10.30 - 11.30	<b>Session Morning Symposium 1</b> <b>Nursing Care in NICU to optimize a better outcomes: from Nurse Perspective Chair : Daulika Yusna / Ning Caswini</b> 1. Can We Minimize Hospital Acquired Infection to Zero: What Our Roles <b>Ita Dwita (NICU Nurse – HKWCH, Jakarta)</b> 2. Developmental Follow up and Nursing Care in Post-Surgical Neonates <b>Karen Walker, NSW-Sydney, Australia</b> 3. Nursing Care in Close NICU Setting: What The Different and Challenges <b>Nurse from UMCG Groningen, The Netherlands</b>
11.30 - 11.40	<b>Discussions</b>
11.40 - 13.00	<b>Lunch and Friday Pray</b>
13.00 - 17.30	<b>Parallel Workshop</b>
19.00 - end	<b>Gala Dinner</b>

## Day 2

Workshop. Friday, Dec 8th 2023.

Workshop 1 Advance Procedures in NICU	Workshop 2 Family Center – NICU: What a Must and What We Can	Workshop 3* Comprehensive Strategy in Small Preterm Infants with RDS: How to Survive with minimal Injuries	Workshop 4* Advance Management Cases in NICU with Echocardiography
<b>Topics :</b> <ol style="list-style-type: none"> <li>Thoracentesis and WSD application</li> <li>Nitric oxide and HFO ventilation</li> <li>Near Infra-Red Spectroscopy</li> <li>Artery access (by umbilical artery and peripheral)</li> <li>Abdominal puncture Central catheter (PICC)</li> </ol>	<b>Topics :</b> <ol style="list-style-type: none"> <li>Introductions and Evidences</li> <li>Requirements, Preparations and Human Resources</li> <li>Revised Born too Soon and the newly published KMC guidelines</li> <li>The impact on parents on separation (the global parent group /GLANCE Report)</li> <li>Parental involvement in family center NICU: how far they can go</li> <li>Is it possible to start: Innovations and Modifications</li> </ol>	<b>Topics :</b> <ol style="list-style-type: none"> <li>Management of RDS in small preterm infants within first hours of life</li> <li>Which one better in oxygen practice: start from “Low or High”</li> <li>How to start: is HFO better than conventional ventilation ?</li> <li>How to achieve the brain still active and less side effect</li> <li>Early oral caffeine and weaning program</li> <li>The last but not least: other aspects beyond ventilation to maintain minimal catabolism</li> </ol>	<b>Topics :</b> <ol style="list-style-type: none"> <li>Basic echocardiography: pediatrician should know</li> <li>Narrow pulse in small preterm infants with PDA</li> <li>Delay treatment and persistent pulmonary hypertension syndrome</li> <li>Critical cyanotic heart disease: when we start prostin and avoid it</li> <li>TAPVD and TGA: when to refer, when to decide interventions</li> </ol>
<b>Facilitators :</b> <ul style="list-style-type: none"> <li>Engkie A. Djauharie (PIC)</li> <li>Peter H Dijk</li> <li>Akira Prayudijanto</li> <li>Eka Saputra</li> <li>Muda Isa Ariantana</li> <li>Ns Yani, Rizqiani, Eni, Nurhayati, Novi, Tati</li> </ul>	<b>Facilitators :</b> <ul style="list-style-type: none"> <li>Lucia Nauli (PIC)</li> <li>Arend F. Bos</li> <li>Karen Walker</li> <li>Nurse from Groningen</li> <li>Eka L Haksari</li> <li>Dini Adityarini</li> </ul>	<b>Facilitators :</b> <ul style="list-style-type: none"> <li>S. Lusyati (PIC)</li> <li>Tetty Yuniati</li> <li>Fiva Kadi</li> <li>Julee Oei</li> <li>Setya Wandhita</li> <li>Tunjung Wibowo</li> </ul>	<b>Facilitators :</b> <ul style="list-style-type: none"> <li>Vinny Yoanna (PIC)</li> <li>Cheah Fook Choe</li> <li>Edy Siswanto</li> <li>Adhi Teguh</li> <li>Ahmad Kautsar</li> <li>Suprohaita</li> <li>Budi Rahmat</li> </ul>

## Day 3

Morning Symposium. Saturday, Dec 9th 2023.

08.00 - 08.40	<b>Session Morning Symposium 1</b> <b>Chair: Risa Etika / Tunjung Wibowo</b> 1. Update on Neonatal Screening <b>Liem Kian Djien</b> 2. Near Infra-Red Spectroscopy Implementation in NICU (Supported by Madesa) <b>Setya Dewi Lusyati</b>
08.40 - 08.50	Discussions
08.50 - 10.10	<b>Session Morning Symposium 2 : Oxygen Treatment and Outcomes</b> <b>Chair: Toto Wisnu Hendrarto / Setya Wandhita</b> 1. Weaning Strategy to Prevent Over Ventilation: Can Bi-level CPAP Take a Role ? <b>Peter H Dijk, UMCG, The Netherlands</b> 2. Intra Cranial Hemorrhage: Management at NICU to Get a Better Neurodevelopment Outcomes <b>Satoshi Kusuda, Kyorin University, Tokyo, Japan</b> 3. Bronchopulmonary Dysplasia: State of The Art <b>Ju Lee Oei, Sydney, Australia</b> 4. Retinopathy of Prematurity in Indonesia: What are Our Challenges ? <b>Johanes Edy Siswanto, RSAB Harapan Kita, Jakarta</b>
10.10 - 10.20	Discussions
10.20 - 11.00	Coffee Break
11.00 - 12.00	Parallel Workshop Session 1
12.00 - 13.00	Lunch and Pray
13.00 - 16.30	Parallel Workshop Session 2

## Day 3

Workshop. Saturday, Dec 9th 2023.

Workshop 5 Advance Procedures in Neonatal Ward and NICU	Workshop 6 Family Center - NICU: What a Must and What We Can	Workshop 7* Comprehensive Strategy in Small Preterm Infants with RDS: How to Survive with minimal Injuries	Workshop 8* Neonatal Sepsis Management : Ventilation and Other Strategies
Topics : 1. Thoracentesis and WSD application 2. Nitric oxide and HFO ventilation 3. Near Infra-Red Spectroscopy 4. Artery access (by umbilical artery and peripheral) 5. Abdominal puncture 6. Central catheter (PICC)	Topics : 1. Introductions and Evidences 2. Requirements, Preparations and Human Resources 3. Revised Born too Soon and the newly published KMC guidelines 4. The impact on parents on separation (the global parent group /GLANCE Report) 5. Parental involvement in family center NICU: how far they can go 6. Is it possible to start: Innovations and Modifications	Topics : 1. Management small preterm infants with RDS in the first hour of life 2. Which one is better in oxygen practice: start "Low or High" 3. What to start: is HFO better than conventional ventilation ? 4. How to keep the brain active and less side effect 5. Early oral caffeine and weaning program 6. The last but not least: other aspects beyond ventilation to maintain minimal catabolism	Topics : 1. Useless antibiotics treatment during neonatal life and problem diagnosis 2. EOS vs LOS at teaching hospital 3. Neonatal ventilation in neonates with sepsis: what we should avoid 4. Fungal prophylactic: what is the regulation 5. Management and prevention of common complications 6. Gut flora and Kangoro mother care
<b>Facilitators :</b> • Akira Prayudijanto (PIC) • Engkie A. Djauharie • Peter H Dijk • Muda Isa Ariantana • Eka Saputra • Ns Yani, Rizqiani, Eni, Nurhayati, Novi, Tati	<b>Facilitators :</b> • Vinny Yoanna (PIC) • Peter H. Dijk • Nurse from Groningen • Alifah Anggraini • IGAN Partiw	<b>Facilitators :</b> • S. Lusyati (PIC) • Tetty Yuniati • Fiva Kadi • Julee Oei • Setya Wandhita • Tunjung Wibowo	<b>Facilitators :</b> • Edy Siswanto (PIC) • Liem Kian Djien • Daulika Yusna • Dina Angelika • Gatot Irawan • Rizalya Dewi

## Day 4

Workshops. Sunday, Dec 10th, 2023.

Workshop 9 Common Surgical Cases in Neonates: From Resuscitation to Discharged	Workshop 10 Neonatal Neurology : What Pediatrician Should Know and Go
<p>Topics :</p> <ol style="list-style-type: none"> <li>1.to learn common surgical cases in neonates (Gastroschisis, Omphaloceles</li> <li>2. Congenital Hernia diaphragmatica, TEF, Duodenal / intestinal obstruction)</li> <li>3. How to treat after birth, ventilate, manage after operation, and also management under perspective from surgeon doctor before refer</li> </ol>	<p>Topics :</p> <ol style="list-style-type: none"> <li>1. Hypoxic Ischemic Encephalopathy: comprehensive management within the first 72 hours of life</li> <li>2. Implementation of aEEG and NIRS monitoring to detect brain damage</li> <li>3. Intra Cranial hemorrhages: when do we go to brain MRI</li> <li>4. Brain Ultrasound in Neonates: some brain injuries patterns we have to look for</li> <li>5. General Movement: can this replace brain MRI as predictor the long term outcomes and what the clue for poor prognosis</li> </ol>
<p><b>Facilitators :</b></p> <ul style="list-style-type: none"> <li>• Engkie A. Djauharie (PIC)</li> <li>• Cheah Fook Choe</li> <li>• Alexandra Sachlan</li> <li>• Daulika Yusna</li> <li>• Putri Maharani</li> </ul>	<p><b>Facilitators :</b></p> <ul style="list-style-type: none"> <li>• S. Lusyati (PIC)</li> <li>• Satoshi Kusuda</li> <li>• Edy Siswanto</li> <li>• Akira Prayudijanto</li> <li>• Liem Kian Djien</li> <li>• Arend. F. Bos</li> </ul>
